

UTTERMOST is a home decor line we adore. They are focused on bringing the most fashion-forward products into the industry. They know that good design means nothing without quality manufacturing. You can be certain that no shortcuts are taken in manufacturing to make sure Uttermost products exceed expectations.

DOVETAIL -Dovetail has developed an expertise in sourcing an eclectic range of handmade furniture, accessories and textiles from around the world. Based in Los Angeles, they have a staff who all have furniture retail experience and thus a good understanding of the requirements of furniture retailers in terms of product design, quality and price.

CLASSIC HOME-

Based in Los Angeles, they began 30 years ago as a distributor of handwoven rugs, but have since expanded to include furniture, textiles, and lighting, all of which can be paired and arranged to create complete spaces according to need, style and function. Handcrafted, sustainably sourced, and thoughtfully designed, their inspired pieces allow you to tell your story by creating personal spaces.

JONATHAN LOUIS-

Made in Los Angeles, there are many good reasons to buy Jonathan Louis upholstery...here are 6 reasons.

1-It is *MADE TO ORDER* from A to Z.

Every piece of furniture is made to order in their factories using quality raw materials that they carefully source from trusted partners throughout the U.S., Canada, Brazil, and Asia. Their superior foam, hardwoods, engineered woods, and other materials are shipped directly to the factories, where they are quality-inspected, hand-cut and used for construction. This highly controlled process allows them to consistently design and build products to meet strict specifications and standards from start to finish.

2-A *FOUNDATION* built to last.

For maximum durability and strength, they only use domestic hardwoods such as poplar for frame construction. Quality engineered wood is used for shaping and other cosmetic features of the furniture. They reinforce stress joints with corner blocks, wood glue and high-pressure stapling, and use polyester padding throughout to ensure that fabric doesn't come into direct contact with the wood frame. Finally, their no-sag seat suspension

features heavy gauge sinuous steel wire, with springs evenly spaced apart to provide stability and uniform comfort.

Thoughtfully engineered seating.

You'll find that the sofas and sectionals feature specific seating types, each painstakingly engineered and paired based on style and overall frame construction. Here's a rundown of what foundations they offer:

*Standard: Features a high-resiliency foam core wrapped on both sides, with a 1" layer of polyester.

What it feels like: firm and supportive, yet still oh-so-comfortable.

*Channeled Blown

Fiber: Features high-resiliency foam core encased in a bag filled with blown polyester fiber, channeled to keep the fiber from shifting.

What it feels like: imagine a relaxed feather and down seat -- cushy, inviting, and relaxing -- but without the actual feather and down.

*Super Plush: Features high-resiliency, super-soft foam core encased in a bag filled with blown polyester fiber, channeled to keep the fiber from shifting.

What it feels like: this ultra-thick foam core reigns in ultimate sink-in comfort.

*Pluma Plush: Features high-resiliency, super-soft foam core encased in a bag filled with duck feathers and down, channeled to keep the feathers from shifting.

What it feels like: this ultra-thick, luxurious foam core offers luxurious, lounge-worthy comfort.

3-*HANDCRAFTED* by skilled artisans.

Masters in carpentry, woodworking, construction, sewing and tufting, Jonathan Louis uses skilled experts who bring true talent and passion to every piece of handcrafted furniture that leaves the factory.

4-*QUALITY CONTROL* at every turn.

The QC process isn't only at the finish line -- every Jonathan Louis piece is meticulously evaluated throughout every stage of the production process. From the first measurement of fabric to the final application of nailhead beading, you can count on quality at every corner -- without ever cutting one.

5-*PRICE* for the upscale FASHION

For a fraction of what you'd pay from a designer, YOU can make your room coordinate and tell a high fashion story.

6-*FABRIC SELECTION*

Come browse through the fabrics and see how Jonathan Louis picks the best fabrics from the mills. Fabrics that will be family-friendly yet fashion forward.

ALDER AND TWEED

The Alder and Tweed family has a background in retail and **Believe in Sophisticated Design with a Fresh, Modern Style.**

Their curated designs make high-end style available to everyone. They pay attention to the latest trends and every last detail, because success is in the details. Alder & Tweed furnishings look the part *and* play the part—they select high quality materials to create impressive yet affordable products, that last!

They're a Family Business Born From a Family Lifestyle

The Alder and Tweed family has a passion for design and the vision to create beautiful yet affordable furnishings. They believe designing furniture is an art and it has the ability to enliven spaces and enrich our lives. Designer, Jeff Lewis, continues to work with them and inspire their look.

GRASSROOTS IMPORTS

At GrassRoots Imports, they seek out small factories around the world and have them build exclusive furniture designs and distribute thru select fabulous stores around the country such as At Home.

They mix in some antiques and other finds gathered along the way and are known for having a timeless, rustic, European flare that never goes out of style. Their chairs, dining tables and bookcases are unlike anything else out there for the price.

FOURHANDS

Welcome to Four Hands!

They invite you to take a look around. Think of it as a design journey, gathering new inspiration and fresh perspectives from the trends, materials and styles they source from around the world. Their furnishings are curated by them, but discovered by you. They are a major trendsetter in home fashion.

FOURHAND'S WORLD VIEW

Their unceasing global exploration keeps them connected to how the world is shaping our products and the way we decorate our dwellings. From early backpacking trips through Southeast Asia to the continued exploration of the world's cities, villages and back alley markets, they are on an endless quest for inspiration. Their tenacious curiosity ensures that no design opportunity is missed as they merge the cultures, experiences and materials of travels into the wide range of styles for which they are known.

PROCESS

The best way to describe Fourhand's design process is relentless. They tinker. They experiment. They take something they love and find ways to tweak it, rearrange it and make it new again. This is how they achieve refined and classic, yet innovative and cool. It's how they mix inspiration with expertise, juxtapose materials and styles and ultimately, offer finished pieces that can transform a space. Each of their pieces tells a story.

HOME TRENDS & DESIGN

Handmade,
Sustainable &
Beautiful

Hank Cravey and Dhaval Lodhavia started HTD with a shared vision: to create the world's best solid wood furniture from sustainable and reclaimed materials. As HTD now enters its second decade, they've become successful while still sticking to their principal concepts, and also helped found multiple organizations such as the Sustainable Furnishings Council and Mango Foundation.

With Hank managing operations in the US, and Dhaval in Asia, the pair have managed to create much more than beautiful furniture - they've created a global connection that has impacted lives and created opportunities around the world.

Established in 2005, Home Trends & Design has been named to the Inc. 5000 five consecutive years and was named one of the top 50 fastest growing companies in Austin for the fourth time in 2015.

OMNIA

At Omnia, it's all about meeting your needs. Whether you're choosing from luxurious leathers in over 400 colors or selecting from over 150 furniture styles they want to ensure your complete satisfaction.

Meticulously executed by skilled American craftsmen using the finest materials sourced around the world, they stand by their craftsmanship.

- Hand-selected hardwood frames
- Reinforced corner blocks for added strength
- Additional cross wire for support and balance
- New advanced tempered steel spring technology
- Special high resilient polyurethane foam core
- Only 100% Top Grain leather
- Only Aniline dyes leathers used

Personalizing Style

They recognize that everyone has a unique style, which is why they cater to everyone's individual preferences and encourage design creativity and customization. They're always creating new styles and expanding design boundaries to keep up with the latest trends.

Made in America down in Los Angeles with U.S. and Imported Material. Omnia's frames are constructed in America with hand-selected woods, which skilled craftsmen then assemble and reinforce with corner blocking to ensure strong and durable seating. Every component, down to the springs, is carefully chosen and examined to meet exceptional standards. Omnia's approach is a much more sophisticated path to long-lasting satisfaction, ensuring decades of use.
